

AMENDMENTS TO THE CLAIMS

This listing of claims replaces all prior versions of claims in the application.

1. (currently amended) A metal belt being formed to be endless by electroforming, and mainly containing nickel, wherein said belt comprises a crystal orientation in which a crystal orientation ratio $I_{(200)}/I_{(111)}$ is ~~more than 80~~ not less than 113 and not more than 250.
2. (cancelled)
3. (original) The metal belt according to claim 1, wherein the belt has a carbon content of 0.03 to 0.10 wt%.
4. (original) The metal belt according to claim 1, wherein the belt is substantially free of manganese.
5. (currently amended) A coated belt comprising:
a metal base material being formed to be endless by electroforming, having a crystal orientation in which a crystal orientation ratio $I_{(200)}/I_{(111)}$ is ~~more than 80~~ not less than 113 and not more than 250, and mainly containing nickel; and
a release layer formed on an external periphery of the metal base material directly, or with at least one elastic layer intervening therebetween.
6. (cancelled)
7. (original) The coated belt according to claim 5, wherein the metal base material has a carbon content of 0.03 to 0.10 wt%.

Application No. 10/713,103
Attorney Docket No. 032099

Amendment under 37 C.F.R. §1.116

8. (original) The coated belt according to claim 5, wherein the metal base material is substantially free of manganese.
